

**YOU ARE INVITED!**  
**FRIDAY, JANUARY 10, 2014, 6:30 PM – 8:30 PM**  
**LE JARDIN ACADEMY, WANG AUDITORIUM, KAILUA**

This is the first in a series of informational and educational presentations regarding the Kauhale (groups of buildings) planned by Kailua's Native Hawaiian Community at Kawainui Marsh. The Kauhale are included in the updated Kawainui Master Plan Draft.

Inspired by our ancestors and the architectural style of the traditional hale. Inspired by this place called Kawainui where our ancestors once flourished. Inspired by a vision that once again we will thrive in Kawainui as continuing stewards of this 'aina. Inspired by the possibilities, we will discuss our vision and how we intend to step lightly upon this 'aina as our kauhale are realized.

Presentations by:

C. Lehuakona Isaacs

Traditional restoration values, stepping lightly upon the 'aina and the contemporary building. Pursuit of excellence in design and sustainability through implementation of the LEED building rating system.

Lehuakona is the President of Ahahui Malama i ka Lokahi, a LEED Accredited Professional with a BD+C specialty, a General Contractor, Consultant and currently a Project Engineer with a large construction firm in Hawaii.

Lauren C. Roth Venu

1. Sustainable storm water management
2. Natural Systems Technologies
3. Towards Net-Zero Water

Lauren is the Founder and President of Roth Ecological Design. She is a leader in integrated systems planning and ecological design. Lauren also has an early connection to Kawainui when Ahahui Malama i ka Lokahi worked to bring a Living Machine project to Kailua in 2001. Three years ago we brought Lauren back into the discussion regarding the kauhale.

THE KAWAINUI KAUHALE PROJECT IS A KAKOU EFFORT BY AHAHUI MALAMA I KA LOKAHI, KAILUA HAWAIIAN CIVIC CLUB AND HALAU MOHALA ILIMA.
